ONE NATION WORKING TOGETHER is a social movement of individuals and organizations committed to putting America back to work and pulling America back together. We come from a diverse set of backgrounds, experiences, beliefs and orientations, and we have come together to **MAKE OUR VOICES HEARD**.

The best way to do that is through stories – **REAL stories** told about **REAL experiences** by **REAL people**, people like **YOU**.

- I am willing to be a spokesperson to local media and share my your story
